SHANNON FAMILY WINES OVERLOOKING CLEAR LAKE AND MOUNT KONOCTI

1 CLEAR LAKE

Clear Lake is not only California's largest freshwater lake — it is also America's oldest. The lake's most distinctive feature is the miles of open, blue waters, perfect for water-based fun your whole family will love. Experience pure bliss as you ride a jet ski or speed boat. Slow down time and cast your line to see why we've earned the title: the Bass Fishing Capital of the West. Or simply sit along the shoreline and sip your morning coffee or an evening glass of wine as you watch the sunrise and sunset. As the crown jewel of our county, Clear Lake boasts an abundance of surrounding unique lodging options, friendly small towns, service stations, and more.

2 BLUE LAKES

Years ago, a giant landslide caused the water at Clear Lake to spill over, forming Blue Lakes, creating a new set of unique geological features that render the waters clear and cool. Blue Lakes let you enjoy peace, tranquility, cheery sunshine and clear blue skies...while you're feeling the wind against your face on a no-wake electric boat. Swing onto a rope into the lake and enjoy this old-fashioned, All-American ritual. Go SUPing, kayaking, and just about anything you can think of to do on the water. Of course, Blue Lakes boasts plenty to do off the water too. Watch birds, hunt rocks, sip wine, and collect memories.

KAYAKING AND STAND-UP PADDLEBOARDING ON BLUE LAKES

3 MT KONOCTI

Mount Konocti County Park opened in 2011, but has been around for a lot longer — about 10,000 years to be exact. The county's largest park is also one of the most unique you'll ever see, as it sits atop a dormant volcano, the mighty Mount Konocti. Mt. Konocti County Park boasts more than 1,500 acres of stunning views and hiking trails, as well as five distinct peaks, with four of the five around 4,000 feet of elevation. The nearby town of Kelseyville is the perfect place to wind down after your adventure. Located just west of Mt. Konocti, Kelseyville is part farming community, part wine country, and all locally-focused. With great shops, food and tasting rooms, it's a small town with a personality as big as a mountain.

4 LIBRARY PARK

Located in the heart of downtown Lakeport, Library Park is small but mighty, with three acres of charm right on the shores of Clear Lake. Library Park boasts beautiful views of Clear Lake and hosts numerous community events all year long. If you want a local's POV, you just can't beat listening to live music in the summer, where tunes of all types are played inside the centerpiece of the park, a charming gazebo. Grab a bite on one of the restaurants or patios overlooking the park.

FOURTH OF JULY CELEBRATION AT AUSTIN PARK

5 AUSTIN PARK

Austin Park offers 20 acres of activities, ranging from canoeing to kayaking, and skating to softball. While Austin Park is a blast anytime of the year, activities ramp up during the summer with a variety of events and festivals: Redbud Festival for flower lovers, outdoor concerts for live music lovers, and even an annual worm race. You can also watch the red, white, and blue blaze across California's clearest skies at one of Austin Park's Independence Day fireworks shows.

6 ANDERSON MARSH

Anderson Marsh State Historic Park is all about protecting and preserving the beauty and wonder of the past: Tule marsh habitats, archaeological sites of the Pomo people, historic ranch structures, among others. All are purposefully kept as they were hundreds, or even thousands, of years ago. While the marsh is a preserve, it still welcomes people to explore its native grass-covered hills, oak woodlands, and Tule marsh. The area is also home to an assortment of aquatic and terrestrial wildlife, as well as more than 150 different bird species, both migrating and resident.

7 CLEAR LAKE STATE PARK

Sitting on the shores of America's oldest lake, this 330-acre magnificent California state park is perfect for hikers, anglers, campers, swimmers, boaters, bird-watchers, water-skiers, and well, just about everyone. Take a gentle stroll back hundreds of years into the past on the Indian Nature Trail, including a stop at an actual Pomo village. Get a front-row seat to the area's magnificent natural features on the 2.5-mile Dorn Trail. Test your skill and try to catch a largemouth bass, crappie, bluegill and channel cat. Or simply relax at one of 147 lodging opportunities, open all year long.

BASS FISHING ON CLEAR LAKE

8 HIGHLAND SPRINGS

Highland Springs Recreation Area is a breathtaking, 3,200-acre watershed. It has been favored by equestrians and hikers for more than half a century for its rugged beauty and unspoiled terrain. Trails developed by hunters on horseback have existed for more than 130 years. These narrow, single-track trails are still accessible today, though they aren't for the faint of heart. The trails traverse very steep terrain, but trust us when we say the views are absolutely worth it. Visitors can enjoy hiking, horseback riding, mountain biking, disc golf, paddling, fishing, picnicking and swimming.

9 RODMAN SLOUGH

Located on the north edge of Clear Lake, Rodman Slough is a bird-watcher's paradise. Hundreds of Great Blue Herons make their nests in the serene slough, but you're just as likely to spot grebes, osprey and egrets. See if you can catch a glimpse of the Double-crested Cormorant, American Bittern, and the Yellow-breasted Chat.

10 HARBIN HOT SPRINGS

Leave reality behind and enter a place of pure tranquility. For thousands of years, these hot springs have served as a spot to relax, rejuvenate, gather in fellowship, and enjoy the rugged beauty of the Mayacamas Mountains. Harbin Hot Springs is a rustic hot springs retreat, one of the oldest in California. Located a roughly 30-minute drive from the Napa Valley wine region, near the charming town of Middletown, its rural setting offers 3,000 acres of meadows, hills, canyons, creeks — and of course, the luxurious hot springs.

HARBON HOT SPRINGS

11 BOGGS LAKE PRESERVE

Boggs Lake Preserve is an upland vernal pool occurring on volcanic substrate. This means that Boggs Lake is not fed by streams, springs, or rivers. Instead, it lies in a volcanic depression lined with a fine layer of volcanic ash that catches rainfall through the summer. As a result, this 46-acre natural wonderland supports all sorts of exotic plant species that are specially adapted to the unique environment, including endangered plants such as the Boggs Lake hedge hyssop. If you prefer fauna to flora, you also may spot deer, coyote, jackrabbits, or a variety of birds, including bald and golden eagles, pygmy nuthatches, purple martin, and California quail.

12 MENDOCINO NATIONAL FOREST

The Mendocino National Forest beckons adventure lovers one and all with more than 900,000 acres (almost the size of Rhode Island) of vast unspoiled terrain. Mountains, trails, rivers, and more. One thing you won't find in the Mendocino National Forest is a major paved entrance. Mendocino is the only national forest in all of California without a major paved road entering it. Visiting Mendocino National Forest is like taking a trip back in time. For nature lovers of all ages, it's like a journey home.
